Model:  
C220M

Icemaker - Vertical Evaporator  
220kg production

## General Information

The C220M produces 220kg of full dice ice cubes and utilises a vertical evaporator for constant high volume ice production ideal for venues that are in need of a continuous supply of ice cubes.

## Key Features

- Specifically designed to cope in even the most demanding venues
- Classic dice shaped ice cube
- Proven and reliable vertical evaporator production system
- Built in self cleaning cycle
- Units can be double stacked for venues where constant ice production is a must
- Tropicalised condensing unit
- Can operate in ambient temperatures up to 43°C
- R290 refrigerant

## Construction

- AISI304 stainless steel construction

## Available Options

- S230 storage silo
- S390 storage silo
- Evepure 4H water filter
